

TIMBERWOLF FORESTRY TREE SHEARS

TIMBERWOLF TREE SHEAR

OVERVIEW

Available in grapple and bunching models, the **Maxx 14" & 16" Forestry Timberwolf Tree Shears** for skid steers are the best choice for forest harvesting shears.

Sharp, 3/4" AR400 milled knife edges cut through trees with ease. Blade adjustment and replacement is simple and easy.

The Maxx Timberwolf hydraulic system features larger lines, reduced pressure loss and a larger rod diameter in the shear cylinder. Hoses are routed internally and are protected from the abusive elements inherent in tree shearing operations. These integrated elements of the hydraulic system yield a 33% increase in shear speed, making the Timberwolf the fastest shear available today.

FEATURES

- Each model features dual grapple arms that secure the tree prior to cutting.
- Heavy duty cylinders provide superior life and feature guarded hardline for added protection.
- Shear blade is comprised of 3/4" AR400 high tensile steel, and can achieve up to 2,500 hours of use if maintained properly.

	Grapple Tree Shear 14"	Grapple Tree Shear 16"	Bunching Tree Shear 14"	Bunching Tree Shear 16"
Model No.	DX-TS-FG-14in-SS-USS 3472D9	DX-TS-FG-16in-SS-USS 7021D4	DX-TS-FB-14in-SS-USS 3474D9	DX-TS-FB-16in-SS-USS 7378D1
Weight (lbs)	2,150 lbs	2,450 lbs	2,250 lbs	2,550 lbs
Height (in)	60 in	60 in	60 in	60 in
Width at shear arms (in)	66 in	66 in	66 in	66 in
Overall depth (in)	46 in	48 in	46 in	48 in
Shear blade material	3/4in AR400 - bolt on replaceable milled knife			
Tower Material	A-572			
Hydraulics	Max Pressure 3,000 psi Flow Rates (min-max) - 15-30 gpm			
Connections	Includes hoses to machine lines with standard flow, quick disconnects (flat face couplings).		Provided w/ electro-hydraulic diverter valve kit. Optional 7, 10 or 14 pin plug adapters available at additional charge. Includes hoses to machine lines with standard flow, quick disconnects (flat face couplings).	

Chemical sprayer tank option includes nozzle and single tank. Get it installed at the factory and easily keep those adversaries down for the count.

Specifications are subject to change without notice.
